

Mode of Examination

The institute follows continuous evaluation system for all its programs. The percentage of continuous evaluation in the overall assessment is in the range of 20-30%. The detail of the weightage is provided in the table below:

Continuous Evaluation	Weightage in overall assessment	Term and Evaluation)	Weightage in overall assessment
Mid-term Assignments	20%	End term exams, Project Work, Presentation, Viva.	80%

Students are assigned marks and grade, based on their performance in a variety of evaluation tools.

Midterm and End semester examinations for various subjects :

Midterm examinations

In every semester , for every subject , distance learners have to appear for a mid-term and an End semester examination. All these exams are having Questions which tests learners knowledge .

Every course syllabus is divided in two parts. Initial few units are covered in the midterm exam and remaining units are covered in the end semester examination.

Mid term assignment has 20 % weightage ,where as end semester exam carries 80 % weightage.

Mid term assignments can be given through online mode from any locations. Please refer to .

End semester examinations

End term examination center can be selected from a list of number of locations available.

The Distance Learner can select any day including Saturday/Sunday and time slot from morning 9 am to evening 6.30 pm during the one month exam round.

Project 'We Like'

Project We Like is an innovative method where learning of management concepts takes place through video based teaching methodology and not through any books. This project is curriculum based where the learner has to refer the Web based study material provided by the Institute.

Final semester project

As part of the curriculum during the last Semester, students are required to take up project work for the successful completion of the PGDM (DLP) Course.

The project report has to be prepared in MS Word (as .doc) and uploaded on the website. The presentation has to be uploaded on the website and Viva will be held online through Virtual Classroom (Video Conference).

Project P2PL (optional project)

“Peer learning” is a form of co-operative learning that enhances the value of student’s interactions and results in various advantageous learning outcomes. It is based on the tenet that “Learners learn a great deal by exploring their ideas to others and by participating in activities in which they can learn from their Peers”.

The learner selects a topic which he feels can be of benefit to others. He then prepares a concept note about the topic on which he can deliver a lecture in front of camera for about 20 – 25 min which is then uploaded on We Tube.
